Part 4**Writing***Music in our lives*

I want to tell you everything what I can about music in my life. I like and I listen to any kind of music. It could be calm jazz or fast rap, slow blues or metallic rock. I sometimes listen to classic music, because some compositions are wonderful. If it is old, it doesn't mean it's bad.

I think music lessons are cool, but I think kids should have choice, what kind of music they will study. Some will want classic, some modern, others will choose all and everything. And it isn't quite necessary, because to listen to music, you don't need to study it.

And yesterday I was asked what I think about psychologists, and I think they are wrong. How can jazz or blues be aggressive.

And as everyone has a choice, musical taste shaming shouldn't still be a thing.

That is all I can say, don't listen to anyone, listen to music
