38	attractive
39	take

B

40	pane
41	weak
42	stories

C

43	a word
44	a river
45	a comb

Part 4

Writing

Modern people can't imagine their life without music. They listen to it every day while working or walking. I think, it's because music helps to spend time faster, however for me it's a type of relaxing.

Most of all, I like pop music, because this kind of music isn't as loud as rock and isn't as boring as classical, but sometimes I prefer them more.

As an example, classical music helps me study better.

By the way, most of us enjoy music using the Internet, so why do we need Music lessons at school? In my opinion, we need them to know about history of people's culture, so I believe, that these lessons are as necessary as History lessons.

As I know, some people say that the music teenagers listen to is very aggressive. Maybe they have such opinion because of many dirty words in modern songs and I agree with them.

Enjoy music!
